

UCM Team Based Learning IRAT Process

1. Timely arrival is expected. Students should be in their seats and ready to begin 5 minutes prior to the start time of the session. Only a pen/pencil and student's clicker is needed. **The desk area must otherwise be empty.**
2. Log in with clicker as soon as you arrive, to verify it is functioning properly. This is the student's responsibility. Please immediately report a malfunctioning clicker to the technical support.
3. IRAT testing times may vary throughout the year, based on course and number of questions. Testing time for the IRAT will be announced at each session.
4. Students must write their name on the IRAT/GRAT paper. Occasionally we use the paper version in the event of unexpected clicker malfunction.
5. Student answers are saved in real time, as soon as an answer choice is selected. Even if a test is not submitted, student answers are saved for grading purposes. It is best to answer questions on the clicker as you go through the IRAT. Time permitting, a student can return to a question to change an answer selection before submitting the test.
6. When test time is finished, students must immediately stop and submit their tests to confirm completion and reset the clicker for the next activity.
7. There is to be **NO TALKING DURING THIS TIME**. Students will receive 1 minute to close out the session. The technical support will monitor if a student enters answers after the IRAT ends.
8. **Only after being instructed to start the Group Readiness Assurance Test (GRAT) may students begin to talk**, to discuss answers with team members.
9. All IRAT/GRAT question papers must be turned in before students leave the room. Any group with missing sheets will receive a zero for the GRAT grade.
